Dear Valued Client,

We at Nogas Landscaping appreciate your continued business. We strive to provide a quality service at the most affordable price. Unfortunately, due to the increasing cost of gasoline over the last several years, and our absorption of this cost, we have no choice but to raise our rates for lawn maintenance and snow removal. As of November 2013, you will notice a small increase should you decide to renew your contract with Nogas Landscaping. Should you have any questions, please contact our office to discuss. Again, we appreciate your continued business and look forward to servicing you in the future.

Sincerely,

NOGAS LANDSCAPING

Dave Noga
