April 13, 2017

Dear Valued Client,

Happy Spring! We at Nogas are looking forward to another successful year of servicing your property. Due to the relatively mild winter, we have gotten a jump start on spring services, and as weather permits, the crews will be on the properties performing additional services. Core aeration was performed on the properties in March and April. Upon assessing many of the properties, it has come to our attention that some may be in need of general maintenance services such as mulching and plant replacement. We recommend remulching at least every two years. This encourages healthy plant growth and also inhibits several weeds from forming in beds without groundcover. In addition, your property may have dead bushes or plants that should be removed and replaced. These routine maintenance practices will not only improve the aesthetics of your property, but will encourage the overall health of your plants and turf. Please contact Dave or Mike regarding walk throughs and estimates. A walk through will not only allow us to assess the property so that we may best care for it, but it will give you, the client, an opportunity to discuss any new ideas for landscaping design or concerns regarding landscape maintenance. We highly recommend walkthroughs be scheduled in April and May. Customers can schedule the walk throughs by contacting Dave or Mike directly, or through the office at 815-462-4475.

We at Nogas are celebrating our 25<sup>th</sup> Anniversary in business and our success depends on you, our customers. We appreciate your business and are looking forward to providing quality service to your property in the 2017 season.

Sincerely,

**NOGAS LANDSCAPING**

Dave Noga

Mike Barry
