January 27, 2014

To our valued clients:

We at Nogas Landscaping would like to thank you in advance for your patience and understanding during these extreme weather conditions. We would also like to inform you of the protocol that we follow during these times. First of all, our crews worked diligently from 8am-6pm on Sunday, January 26<sup>th</sup>, servicing all properties under the stated contract terms (2" snowfall). Unfortunately, the blowing and drifting that occurred late Sunday and continues as of today, requires servicing above and beyond the stated contract terms. Therefore, should you need additional services beyond those provided initially, they are available at an additional charge. That being said, with the exception of emergency situations, we cannot send shoveling crews out until the weather permits. Therefore, due to the extreme freezing temperatures, these additional services may not be available until Wednesday, January 29<sup>th</sup>. Again, we appreciate your patience and strive to provide the best service considering the present challenges. Please contact us if you have any questions regarding these services.

Thank you,

Nogas Landscaping
