WINTER 2011/2012 NEWSLETTER

The holiday season is upon us, and we would like to wish all of you a Merry Christmas, and a Happy New Year. Nogas Landscaping has just completed our twentieth season. We would like to extend our humble appreciation for your continued business and loyalty which has allowed us to grow from a one man operation to a full service landscaping company with a team of over 60 employees to serve you. Again, thank you for allowing us the opportunity to serve you and grow as a business. In return, we will continue to strive to provide the highest level of service and customer satisfaction that you have come to expect from Nogas Landscaping.

As we enter the winter season, the snow removal services are in full swing. Our crews and equipment are fully prepared and in place to ensure the efficient transition from lawn care to snow removal. During the month of December, we will be doing general clean ups, as weather permits. We offer dormant pruning services if needed; please call for prices. Temperatures for the month of December have been above normal; and meteorologists foresee milder temperatures and less snow. Only time will tell, but regardless, Nogas will continue to work all winter long offering your association services such as dormant pruning, tree trimming, and tree removal. Please contact us regarding any upcoming projects you may have in mind.

Again, we would like to thank you for a successful 2011 season. Our crews worked very hard to keep your property above our highest of standards. If you would like to discuss our service, please contact Dave or Mike as we are always trying to improve. Thank You and Happy Holidays.
