Feb 1, 2017

Dear Valued Client,

Hopefully, Spring will soon be upon us, and Nogas Landscaping is looking forward to servicing your Association for the 2017 season. Due to the relatively mild winter, we have gotten a jumpstart on a few of our spring services, as weather permits. Crews have been out raking and removing any late falling leaves and debris that has accumulated over the winter. As a valued Nogas Landscape customer, this jumpstart on spring services during the mild conditions ensures your property is maintained to our high standards of excellence. We pride ourselves on not being “just a seasonal business”, and we strive to make your property look excellent throughout the year.

Please remember, spring is a great time to re-mulch existing landscape beds. We recommend re-mulching at least every two years. This encourages plant growth and also prevents several weeds from forming in beds without groundcover. Please consult Dave or Mike regarding your spring walk through. A walk through will not only allow us to assess the property so that we may best care for it, but it will give you, the client, an opportunity to discuss any new ideas for landscaping design or concerns regarding landscape maintenance. Customers can schedule their walk through by contacting Dave or Mike directly, or through the office at 815-462-4475.

We appreciate your business and are looking forward to providing quality service to your property in the 2017 seasons. We are celebrating our 25th year in business this season and have you, the client, to thank for it. Thank you for your continued trust in our company. We look forward to servicing your association for many more years to come.

Sincerely,

NOGAS LANDSCAPING

Dave Noga
